GENERAL ENGLISH FOR IELTS PREPARATION

UniHaven offers a range of general and more specialist English Language courses which can be taken separately or as part of a combined programme.

Our General English classes are suitable for students at all different levels, whether you are a beginner or have studied for a number of years. If you wish to study at college or university level in any English-speaking country, the International English Language Testing System (IELTS) test is the world's most popular English language exam. In fact, over 11,000 organisations in 140 countries accept it as proof of English language proficiency including educational organisations, multinational employers, governmental authorities and professional bodies.

If you are looking to prepare for future **study in abroad**, or you are looking to enhance your **English skills** in order to improve career or business opportunities, or it could be that you just want to improve your conversation skills for personal or social reasons. We have a range of additional IELTS course options.

Whatever the reason, our small class sizes and our experienced and dynamic native English-speaking teachers will help you progress quickly and thoroughly in a warm and welcoming environment. Through our state-of-the-art Learning Management System your *course* will show how much you are improving. At the end of the **course**, you will receive a report which will help you with your future plans.

Our English classes are available online or on a one-to-one basis. To get an idea of your current level, take our free placement test.
